FOR IMMEDIATE RELEASE

**A Home for Habitat**  
*WTS Paradigm Helps a Local Family in Need*

Middleton, WI - August 18, 2010 - For the second year, WTS Paradigm, the innovation leader in fenestration software for manufacturers and dealers, sponsored a local family through Habitat for Humanity of Dane County. On Saturday, August 7, WTS Paradigm employees were able to volunteer their time to help build the home that WTS Paradigm sponsored.

"WTS Paradigm has built a charitable focus into our company structure. We are fortunate to be experiencing strong growth through tough economic times, and in turn we believe it is important to create a culture full of giving," stated Nathan Herbst, president.

WTS Paradigm donated all the windows and doors, while WTS Paradigm customer, Clopay, donated the garage door. Staff members from WTS Paradigm were also able to donate part of their weekend to the project. "I'm glad that WTS Paradigm supports the Habitat for Humanity organization each year, allowing employees to help out local families in need," commented Casey Wulff, CenterPoint developer. "It's a fun experience to be able to learn more about the industry we serve by actually working on the home."

Volunteers from WTS Paradigm helped build the roof and trusses as well as put up insulation and house wrap. WTS Paradigm would like to thank Habitat for Humanity for making this volunteer day possible.

**About WTS Paradigm**

WTS Paradigm(R) has grown into an industry leader in the window and door software industry. They have developed the most advanced software for the window and door industry and their technology solution has gained acceptance across all sizes and types of window and door manufacturers and dealers. The core of WTS Paradigm software is the product Configurator, which is embedded in the CenterPoint program to facilitate the quoting and ordering process. Orders entered through CenterPoint flow seamlessly into their manufacturing and ERP software solution, MasterPoint. For more information, visit [www.wtsparadigm.com](http://www.wtsparadigm.com).
